

Heat Zone Map

Name: _____

This map is based on "Heat Zones" and is the counterpart to the USDA zone map (based on the lowest average temperatures). This is based on the average number of days above 86F. The "Heat Zone" concept was developed by the American Horticultural Society.

Heat Zones

3 less than 14
4 14 to 30
5 31 to 45
6 46 to 60
7 61 to 90

8 91 to 120
9 121 to 150
10 150 to 180
11 180 to 210
