## Sunny Days in the U.S.A.

Although we're all part of the same country, we don't all get the same amount of sunshine. Due to a number of factors, the percentage of sunny days each year can vary widely. It ranges from Arizona (85%) to West Virginia (40%).

This map is based on data from the NOAA. It is a rough average calculated from various sites throughout the states. To see the raw data, go to
